### Plant a Wave Hill Chair

~Donation - \$225~

Picture yourself sitting in the Culp's Clearing garden in August watching butterflies go wild over the 1100 *Asclepias tuberosas* blooming in the garden; or in September and October when 95 asters burst into bloom. The 75 *Agastache 'Purple Haze'* will be no slouch at attracting birds and butterflies! The plantings are artfully combined to have blooms and textures that rise and fall in succession so that there is always something of interest no matter the season.
